vided opinion as to Iceland. Some favors, and others that to give Iceland its freedom would rid the country of a source of useless expense.

Iceland's new flag is of a navy blue

It was not until after the state of the Danish parliament.

London, Aug. 17 .- For the purpose states received good rains. A little gun soon on the construction of 14 of improving the breed of cattle in the Hogs, 20,000; left over 7,100, Prost fell in Canada. Iowa, northern Illismall lighthouses for the Panama Pacific northwest, some important nois and the northwest also received government. The work will be done purchases of English cattle have been rains. Temperatures were seasonable by private contractors. All of the made here for James J. Hill. One shipment is of fifty dairy shorthorn bulls, which will be given away to as many counties in that section of the country. Each one of these bulls is born of a cow with a milk record of 10,000 pounds or more the year.

Besides the gift of these blooded anmals to the farmers of the northwest. herd of ten cows and a bull of South Devons, the first to be imported to America, will be sent to Hill's Minnesota farm as well as two prize winning dairy shorthorns to his North Dakota

The purchases were made by Prof. Thomas Shaw, the well known expert of Minnesota. According to Eugene Grubb, the United States livestock commissioner now in England, this is the most important shipment of blooded cattle ever made to America from England and will mean a great improvement in breed in the northwest both for milk and beef purposes.

Worcester, Eng., Aug. 17. - Four blind school boys, pulling with a clean steady stroke, recently won a race here on the Severn against a crew of four blind men. The victors belonged to the Worcester College for the Blind and their rivals were former pupils. Out of this has resulted a rowing boom at the school, and three "fours" are now in training out of the thirty boys. They hope to enter next season for the public school cup at the Molesey regatta.

The boys were trained by their eadmaster, G. C. Brown, who, having yes, acted as coxwain.

part," says Mr. Brown. "First, they absent on three and against two, had to feel all over the boat and the oars, while I explained things to them. We trained in a 'tub' with outriggers and fixed seats. But once they learned the feeling of the water, they picked up the stroke easily. Their keen sense of hearing and the movement of the boat enables them to keep perfect
